19 July 1957

MEMORANDUM FOR: Project Director

SUBJECT: System Three Exploitation

25X1A9a

1. I think you will be interested in reading the attached memorandum from [REDACTED] of OCI reporting on his investigations at NSA on the exploitation of System Three tapes. I am acting on his suggestion, which seems a good one, in paragraph 5.

2. I might add that, having been stimulated by our discussions yesterday at Eastman Kodak on the importance of constantly reviewing our activities and exploring for new ideas in exploitation, I have proposed to Pete Scoville that with Ralph's departure and his willingness I would like to thoroughly review our exploitation of System One tapes. At least we could thereby reassure ourselves that we have left no stone unturned. At best, we might be able to effect improvements.
